

## Lingnan Research

# Impact Cases

Timely response to social needs has been central to the research and knowledge transfer (KT) work of Lingnan. Our prowess in generating impact beyond academia is further evidenced by our achievements in the Research Assessment Exercise (RAE) 2020 of the University Grants Committee in Hong Kong. More than half of the Impact Cases submitted by Lingnan were rated as 4-star or 3-star, signifying 'Outstanding' or 'Considerable' impact, respectively.

Our world-class KT work demonstrates impact created from our scholars' research and expertise to the direct benefits of the community and professions.
